

Cloud Strategy Workshop

Onsite workshops offer an easy way to accelerate your cloud implementation project. If you are unable to do the project yourself, and a Guided Implementation isn't enough, we offer low-cost onsite delivery of our 4-day, interactive cloud strategy workshop. We take your team through every phase of your specific project and ensure that you leave with a detailed roadmap in place to complete your project successfully.

Module 1: Harness the Cloud's Full Potential

The Purpose

Select and evaluate workloads to move to the cloud.

Key Benefits Achieved

An understanding of where the cloud makes sense (and where it does not).

Activities and Outputs

1.1

Brainstorm a list of workloads to assess.

1.2

Align workloads to service models.

1.3

Highlight which service model(s) make most effective use of resources.

- Service models by workload

Module 2: Evaluate Cloud Risks and Create Initiatives

The Purpose

Develop a list of risks of a cloud migration and mitigate them.

Key Benefits Achieved

An understanding of the requirements of a cloud migration.

Activities and Outputs

2.1

Learn about the wheel of risk.

- Risks matched to workloads

2.2

Brainstorm risks likely to impact a cloud migration.

- Specific mitigations

2.3

Develop risk mitigation strategies.

- Initiatives to plot as part of the road mapping exercise

2.4
Create initiatives from mitigations.

Module 3: Produce a Cloud Strategy Document

The Purpose

Create a cloud strategy document.

Key Benefits Achieved

A comprehensive strategy document that collates information on cloud benefits.

Activities and Outputs

3.1

Assess current state of cloud readiness.

- Cloud Strategy Document

3.2

Identify goal state.

3.3

Populate the cloud strategy document to align goals with workload considerations.

Module 4: Create a Cloud Roadmap and Executive Presentation

The Purpose

Populate the cloud strategy roadmap and the executive presentation.

Key Benefits Achieved

A cloud strategy initiative map and executive presentation to communicate the results of the workshop.

Activities and Outputs

4.1

Use the strategy document to identify initiatives.

4.2

Plot initiatives on a roadmap.

- Cloud roadmap

4.3

Create an executive presentation.

- Executive presentation
